

REMARKS

The Notice to File Missing Parts of Nonprovisional Application mailed on September 13, 2001 indicated that the drawings contained excessive text. The response mailed November 13, 2001 included revised Figures 4-8 deleting the text. Accordingly, this preliminary amendment amends the specification to include the text from Figures 4, 5, 6, 7 and 8 that was deleted from the Figures filed November 13, 2001. Also submitted with this amendment are second replacement Figures 6 and 7, which include the information notated by "\*." The small amount of text included on those Figures should not be objectionable, and the information is included for ease of review.

The amendments to the specification are fully supported by the original figures as filed, and no new matter has been added. If there remain further drawings that are objectionable, the Examiner is invited to contact the undersigned attorney.

Respectfully submitted,

Kristin D. Mallatt  
Reg. No. 46,895
